***THE ORACLE REBORN....*** is a lightning-paced, one-of-a-kind suspense thriller about an ancient promise. Filled with riddles, captures, and escapes, this cinematic novel takes you on a heart-stopping international journey. Wisdom, love, and adventure merge as Sarah Rider, a San Francisco police officer with extraordinary gifts of prophecy, discovers that she is a direct descendent of a powerful Delphic priestess, making her a prime target for those in search of an oracle. Eluding threats and danger, Sarah races towards destiny and love, relying on her instincts, oracles, and self revelations to survive a globetrotting adventure into the realms of hidden tablets and scrolls, forgotten mythologies, and Pythagorean wisdom.

***THE ALIEN ORACLES....*** is a riveting, page-turning adventure-thriller filled with wisdom perspectives! A quest to discover the original language and symbols of humankind places Dr. Hope Taylor and her dedicated associates – a British archeologist, a biblical historian, and an ex-Legionnaire/NSA operative – in deadly danger as secret societies, the Vatican, and rogue mercenaries pursue them in order to both suppress and unleash the power of ancient knowledge and biblical prophecy. This group of intrepid truth-seekers defies the danger ahead and takes a perilous journey filled with death, discovery, and revelation. The enigma of the Black Opal, the sub rosa plot to usher in *The Second Coming*, and the real power of the *Ark of the Covenant* are all revealed in this quest to solve mysteries unknown for centuries. From the distant stars, scattered throughout the world – Sumer, Luxor, Roswell... – etched on shimmering triangular Tablets, come oracles hidden for centuries and compelling evidence of alien interventions.

## *Believe in the power of Words....*

**NOTHING** can replace the awesome power of the written word. That is why **novels** can best express the “possibilities” that our universe is not what it seems. As archeology continues to uncover puzzles and enigmas, history is slowly being revised. Even then, the historical paradigm is limited UNLESS we can imagine the possibilities that exist beyond what we see and experience outwardly, for the greater universe rests within, where the infinite consciousness waits to be discovered. When we come to realize all the universes are ONE, and that there is no separation into parts, only then can we understand what science sees is merely an “aspect” of the ONE, and a pale one at that.

## IMAGINE!

**IN the beginning**, the universe was calm. Nothing stirred but a dim light. A distant sound echoed across the far points of eternity. An awakening trembled at the edges. Then, streaking by starlight, an angel appeared, carrying a mirror from heaven. Turning towards a rest point, the angel glanced back, distracted, and the mirror fell, disappearing into the vast and silent universe....
